

CLONDALKIN GROUP SELECTS RADIUS SOLUTIONS' PECAS VISION ERP SOFTWARE FOR THEIR SPECIALIST PACKAGING DIVISION.

Sheffield, England – 22 April 2010 – Radius Solutions Ltd., a leading integrated Business Information Management provider for the Packaging and Printing industries and Clondalkin Group have jointly announced a strategic framework agreement under which Clondalkin has appointed Radius Solutions as their preferred global supplier of print and packaging MIS systems across the Group's Specialist Packaging division.

Clondalkin Group is an international producer of printing and packaging products and services with two business divisions. The Specialist Packaging division comprises folding cartons, labels, leaflets, literature and inserts/outserts businesses and also paper packaging and printing businesses.

Clondalkin Group selected Radius from other potential suppliers because of the quality of its PECAS Vision software product offering in addressing the needs of a diverse and professional Print and Packaging Group, and because of Radius' ability to support Clondalkin in all of its important markets; the U.K., Ireland, mainland Europe and the U.S.A.

Since signing the agreement in June 2008, the first group company has successfully installed and gone live with the PECAS Vision software with plans to roll out to the remaining companies within the Specialist Packaging division.

Craig Liggins, Chief Financial Officer at Clondalkin's Specialist Packaging Division stated "we have a positive experience of working with Radius in several sites across Europe over recent years, and we are pleased to announce this strengthening of the relationship between the companies".
