

Radius Solutions Signs Agreement to Become Part of EFI's Applications Division.

Radius to add world class ERP software for packaging companies, to EFI's solutions portfolio.

Chicago, IL – April 30, 2010 — Radius Solutions Ltd., a world leader in enterprise software applications focused exclusively on the packaging industry, announced that it has signed an agreement to become part of EFI. The company has plans to formally join the EFI organization within the next few months, adding its world class enterprise application for packaging to EFI's portfolio of print industry technologies.

The deal represents a strategic fit for both organizations; Radius Solutions' leading software would expand EFI's portfolio in the packaging arena, while gaining the global footprint and financial strength of a large, publicly quoted company. "It is exciting to have Radius Solutions join the EFI family," said David Taylor, President and CEO of Radius Solutions. "Our ERP packaging software fits strategically within EFI's solutions portfolio, and our clients will gain a supplier with a global footprint and the additional resources of a tier one organization. I look forward to managing the Radius product line within EFI's world class organization."

EFI intends to integrate a number of its award winning products including Fiery, Jetrion, Digital StoreFront, PrintFlow and Auto-Count, with the Radius Solutions product line. "We are very pleased to add Radius Solutions to our growing portfolio," said Marc Olin, Sr. VP/GM APPS of EFI. "EFI's goal is to offer our customers a complete product portfolio that assists them from job creation to production, while allowing them to be more efficient and effective, and ultimately, more profitable. Radius allows us to bring this concept to the packaging market, which is one of the largest segments of the print market, joining our Pace and Monarch MIS systems which are targeted to the display graphics and commercial print markets."

About Radius Solutions

Radius Solutions is the world's largest ERP software provider focused exclusively on the packaging industry. With more than 35 years of experience and focus, Radius Solutions' PECAS Vision software has become an industry standard for leading converters wanting to streamline operations, respond more quickly to customer needs and gain immediate access to critical business information.
